Fiduciary Returns (1041)

The basics of data entry on a fiduciary (1041) return are the same as for the 1040. Navigation through data entry, field- and screen-level help, and keyboard shortcuts all function as they do in the 1040 program. See the 2016 Drake Tax User’s Manual for the basics of using the program. (The manual is available on the installation CD and on the Drake Support website: Support.DrakeSoftware.com > Training Tools > Manuals.)

What’s New in Drake Tax for 2016

Drake Tax programs its software according to the latest IRS rules and regulations. The 2016 program reflects all changes to forms, credits, and deductions. For details on the new regulations for the 2016 tax year, see the IRS instructions for Form 1041.

The following changes, additions, and enhancements were made to the 1041 package:

New Look to the Data Entry Menu

The tabs of the Data Entry Menu in the Fiduciary package have been changed this year, with two new tabs, new screen links added to other tabs, and many current links moved to more convenient locations.

General Tab: Links to more of the generally used screens have been moved to this tab, including link to screens:

- AGI – AGI and AMID
- DIV – Dividend Income
- 1099 – 1099-R Retirement
- GRS – Grantor’s Schedule
- INT – Interest Income
- 8949 – Sales and other Dispositions of Assets

Income Tab: This tab has been redesigned to be more readable.

Taxes Tab: All necessary screens related to taxes have been grouped on this new tab.
**Foreign Tab**: Use screens on this new tab for entering data on foreign financial accounts, filing FinCEN Form 114, and for completing Form 1116, Foreign Tax Credit.

For more on completing FinCEN Form 114, see “Foreign Financial Accounts” on page 261 of the 2016 *Drake Tax User’s Manual*.

**Oil and Gas Depletion Worksheet**

The Oil and Gas Depletion Worksheet calculates oil and gas depletion and give your clients the best possible deduction.

The **DEPL** screen, available from the **Income** tab of the **Data Entry Menu**, is completed in the Fiduciary package in a similar fashion as the 1040 package. For details, see Chapter 5 of the 2016 *Drake Tax User’s Manual*.

**Filing Security Screen**

The new **Filing Security Information** screen (Figure 1) is accessible from screen 1 or the **SEC** link of the **General** tab of the **Data Entry Menu**. The information entered on the **SEC** screen is transmitted when the tax return is e-filed. Completing this screen for federal returns is strictly optional for 2016; however, certain states will begin requiring this information in the near future.

![Figure 1: Filing Security Information screen, accessed from the General tab of the Data Entry Menu, or from the link on screen 1.](image)

**K-1 Export to all Packages**

The K-1 Export feature can now export K-1 data from pass-through entities to any of the packages in Drake Tax.

In addition, the K1 “source” screens (**K1P, K1S, K1F**) have been enhanced with an **Additional Entries** tab. This new tab offers 40 more fields for entering additional K-1 items.

See “K-1 Export” on page 22 for details on exporting K-1 data from a fiduciary return.
Practice Management Tools

For details on additions and enhancements to Drake Tax’s practice management tools—such as new password requirements and other security enhancements, the new data entry toolbar, changes to Drake Documents (formerly the DDM)—see the 2016 Drake Tax User’s Manual.

Updating a Prior-Year Return in Drake Tax

If you prepared the tax return last year, you will first need to update it to the 2016 package.

Prior-year returns can be updated in three ways:

• A single return (updated one at a time) using Last Year Data > Update Clients 2015 to 2016 (recommended)
• When you open the return for the first time in the 2016 program and are prompted to update it
• With all other returns in the program using Last Year Data > Update Clients 2015 to 2016 (not recommended)

Drake Tax recommends using the first option (updating returns individually) to ensure that you update only those items in a return that you want updated.

NOTE

When you update a 1041 return that was marked as “final” the previous year, the program informs you that the return was marked as such before prompting you to proceed.

About the Grantor Check Box

There is a Grantor check box on screens 8949, DIV, INT, C, E, and F (Figure 2).

If Partial Grantor Trust has been selected on screen 1, marking the Grantor check box makes any information entered on screens C, E, F, 8949, DIV, or INT a part of the Grantor Statement. If Full Grantor Trust has been selected on screen 1, marking this box on screens C, E, F, 8949, DIV, or INT is not necessary.

NEW FOR 2016

Separate Schedules C, E, or F will be produced for each grantor.
Header Information

Screen 1 contains fields for the general information printed in the top section of page 1 of Form 1041.

Estate, Trust and Fiduciary Information

On screen 1, enter the name of the estate or trust and the name, title, and address of the fiduciary (individual or business) handling the estate or trust.

If the fiduciary has a mailing address in one state but does business in another, select the state in which the fiduciary does business from the Resident state drop list in the Other Information section on the right side of screen 1.

NOTES

If the fiduciary is a financial institution that submitted estimated tax payments for the trusts for which it is the trustee, mark the check box in the Fiduciary information section. For the purpose of this form, a financial institution is one that maintains a Treasury Tax and Loan (TT&L) account. Attorneys and other individuals functioning in a fiduciary capacity should not mark this box.

Name Control

For information on entering a name control, see the field help for the Entity name control box.

Tax Year

The program uses the calendar year as the default period for all fiduciary returns; no date entries are required on screen 1 for a December 31 tax year-end. If the return uses a fiscal year (where the year begins in the current year and ends in the next), specify the beginning and ending dates in the Fiscal begin and Fiscal end fields on screen 1.

NOTE

The program adjusts calculations for depreciation, gains, and losses on sales of assets based on the tax year used.

Boxes A through G

Enter most information for boxes A through G (top of Form 1041) on screen 1. Note that box B (“Number of Schedules K-1 attached”) is completed automatically based on the number of K1 screens completed in the program. Other boxes are:

• Box A — Type of entity
• Box C — Employer identification number (EIN)
• Box D — Date entity created
• Box E — Check boxes for nonexempt charitable and split-interest trusts
Drake Tax Manual Supplement: Partnerships

Box F — Check boxes to indicate if a return is an initial, a final, or an amended return, and to indicate name change for the trust or an address or name change for the fiduciary.

Box G — Check box to indicate if a section 645 election was made and a field to enter EIN of the trust.

NOTE
If the estate or trust was closed or terminated during the year, enter the date of closure or termination in the Date closed/terminated field in the Other Information section of screen 1.

Types of Entities
Indicate the type of entity in the General information section of screen 1. If the return is for a decedent’s estate, mark the Decedent’s estate check box and (required) enter the decedent’s name, SSN, and date of death. For a trust, mark the type of trust. For a bankruptcy estate, see “About Bankruptcy Estates,” below. For a grantor-type trust, see “About Grantor-Type Trusts,” below. If the return is for a Pooled Income Fund, mark that box. (For more information, see the field help for the Pooled income fund check box.)

NOTE
If the entity is a trust and must distribute all of its income during the year, indicate that by marking the Distribute all income check box in the Other Information section on the right side of screen 1.

About Grantor-Type Trusts
If the entity is a grantor-type trust, make a selection from the Grantor Type Trust check boxes on screen 1, and then click the GRS link to open the GRS screen. (Screen GRS is also accessible from the General tab of the Data Entry Menu.)

If you select the Full Grantor check box from the Grantor Type Trust section on screen 1, pages 1 and 2 of Form 1041 will not contain any amounts.

If you select Partial Grantor, you must also indicate what the other part of the trust is: Simple, Complex, Qualified disability, or ESBT.

For partial grantors: The income and expenses entered on certain data entry screens — such as screen C (for business income), screen DIV (for dividend income), screen INT (for interest income), screen E (for real estate income and expense, or screen F (for farm income and expense)—flow to the Grantor Statement (“GRANTOR” in View mode) if you mark the Grantor check box on those screens. Full grantors do not need to mark the Grantor boxes as this information flows automatically to the Grantor Statement for full grantors. It is not necessary to enter all the income and expense amounts on the GRS screen; you must, however, enter the grantor’s name, address, and tax ID number on the GRS screen.

Consult the screen help and field-level helps for more information on completing screen GRS.

About Bankruptcy Estates
If the 1041 is for a bankruptcy estate, mark one of the Bankruptcy estate check boxes (for Chapter 7 or Chapter 11) and then click the link to the BR screen. Enter the infor-
Information on taxes, payments, and penalty. Print the return, attach a copy of the taxpayer’s Form 1040, and mail the return.

**NOTE**

The bankruptcy estate return cannot be e-filed.

### Interest and Dividends

Use screen **INT** to enter information from Form 1099-INT, and use screen **DIV** to enter information from Form 1099-DIV. The **INT** and **DIV** screens in the 1041 package are similar to those in the 1040 package. For information on entering amounts as percentages and entering state-specific information, see the *2016 Drake Tax User’s Manual*.

Access the **INT** and **DIV** screens from the General or Income tabs of the Data Entry Menu, through links on screen 3, or by typing **INT** or **DIV** into the selector field and pressing ENTER.

### Business Income or Loss (Schedule C)

If the estate or trust operated a business, use screen **C** (Schedule C) to report income and expenses in addition to the estate’s or trust’s share of depreciation, depletion, and amortization (generally, depreciation and amortization are entered on screen **4562**), and any interest paid or incurred on indebtedness allocable to a trade or business. Net income or loss from Schedule C is shown on line 3 (“Business income or loss”) of Form 1041.

Screen **C** in the 1041 package is identical to screen **C** in the 1040 package, with the exception of the **Grantor** check box.

For more information on completing Schedule C and entering vehicle information, see the “Self-Employment Income (Schedule C)” section and the “Auto Expenses” section in Chapter 5, “Return Preparation,” of the *2016 Drake Tax User’s Manual*.

### Capital Gains and Losses (Schedule D)

**Screen codes**

- **8949, D2**

The amount on line 4, “Capital gain or (loss),” flows from Schedule D, line 19, column 3 (for gains) or line 20 (for losses). Entries on several screens, including screens **8949, D2, 2439, K1P, K1F, K1S, DIV, 6252 4797, and 4562** are used to calculate these lines of Schedule D.

**NOTE**

Form 1099-B, Proceeds From Broker and Barter Exchange Transactions, reports individual transaction information and contains cost basis fields for brokers who are required to supply such information. Enter 1099-B data on screen **8949**.

**Form 8949, Schedule D, Form 1099-B**

Screen **8949** has fields for Form 8949, Schedule D, and Form 1099-B data. Following are some guidelines for data entry on this screen, first for 1099-B information, and then for 8949–specific information.
• **Applicable check box (Basis not reported...)** — Indicate by selecting an option from the drop list if the basis of the asset was reported to the IRS or if the transaction was not reported on Form 1099-B. (Selection 1 is the default.)

• **Description** — Enter description of capital gain or loss item. You can use stock ticker symbols or abbreviations (limit 32 characters) to describe the property as long as they are based on the descriptions of the property as shown on Form 1099-B or 1099-S (or substitute statement).

• **Date acquired** — Enter the date acquired as an eight-digit number using the MMDDYYYY format. This date is used to determine whether the sale is short term or long term. Enter VARIOUS or INHERIT, as applicable. (Only “Various” and “Inherit” are acceptable for e-file.) Select S or L from the **Type of gain or loss** drop list to have the gain treated as short term or long term.

• **Date sold or disposed** — If a single date does not apply, type Bankrupt, Worthless, or Expired, as applicable. Select S or L from the **Type of gain or loss** drop list to have the gain treated as short-term or long-term. (If Expired is entered, the return must be paper-filed.)

• **Type of gain or loss** — Select from the drop list to describe the gain or loss as long term or short term. (The program will use S (short term) by default when no date in entered in either the Date acquired or Date sold or disposed fields.)

• **Proceeds from sale...** — Enter the sale amount. If only the gain amount is available, enter the gain amount and leave the **Cost or other basis** field blank.

• **Cost or other basis** — Enter the cost or basis. If only the loss amount is available, enter the loss amount and leave the **Proceeds from sale...** field blank.

• **AMT cost basis** — Enter the cost basis for AMT purposes if different.

• **Adjustments** — Up to three adjustments per screen is permitted. For each adjustment, select the applicable code from the drop list and enter the amount of adjustment (and AMT adjustment, if applicable) to the gain or loss.

• **AMT** — Several AMT–related fields are included on screen 8949:
  - The Capital Gains and Losses worksheet (D_AMT) will use the same number as the regular Schedule D unless entries are made in the **AMT Adjustment to gain or loss** and **AMT cost basis** fields on screen 8949.

• **Federal tax withheld** — Enter the amount of federal tax withheld from the proceeds of a sale.

• **Loss not allowed...** — Mark this box if the loss is not allowed based on the amount in box 1d.

• **Amount of section 1202 gain** — Choose from the drop list the percentage of qualified small business stock that the taxpayer held for five years and then sold:
  - 50% if acquired after 8/10/1993
  - 60% if the small business is in an Empowerment Zone
  - 75% if acquired between 2/18/2009 and 09/27/2010
  - 100% if acquired from 9/28/2010 and 12/31/2013
Enter amount of QSB 1202 stock in the second field:

- **State Info** — Select state, enter ID number, state tax withheld.
- **State Use Only** — Check with your state for required codes.

**NOTE**

Certain other items – such as the **Accrued Market Discount** field, the **Wash Sale loss disallowed** field, and the line 12 check box – were added to the screen to match changes to the Form 1099-B.

**Screen D2, Carryovers & Other Entries**

Screen **D2** (Schedule D) has fields for short-term gains/losses from other sources, long-term gains/losses from other sources, and loss carryovers from the prior year. If Drake Tax was used for the taxpayer last year, the loss carryover fields are updated automatically.

Lines 1a and 8a of Schedule D on screen **D2** are used to report all short-term and long-term transactions for which basis was reported and for which there are no adjustments.

In the **Proceeds** field of line 1a, enter the total sales price, and in the **Cost or other basis** field, enter the cost or other basis for all short-term transactions reported on Form 1099-B for which basis was reported to the IRS and for which you have no adjustments. Enter information on the long-term transactions on line 8a.

An entry on either line 1a or 8a means you will not be making an entry on screen **8949**.

If amounts to be entered on screen **D2** differ due to AMT, enter them under the **AMT if Different** column. For information on override fields, press F1 in a selected field.

The fields on lines 17 and 18 are for allocating some or all of the amounts to the beneficiaries. (Calculate the return to have the program fill in the **Estates or trust’s** column.) Only gains (no losses) can be entered in the **Estates or trust’s** column. Amounts entered affect calculations for lines 17, 18, and 19 on Schedule D. Amounts under the **Estates or trust’s** column also flow to the appropriate line of Schedule B, and amounts under the **Estates or trust’s** column flow to the capital gain calculation.

**Rents, Royalties, etc. (Schedule E)**

**Screen Code: E**

Use screen **E**, accessible from the **Income** tab of the **Data Entry Menu**, to enter most Schedule E information. The Schedule E calculation flows to line 5 of the return.

The **E** screens in the 1041 package are similar to those in the 1040 package. For more information on completing these screens, see the **2016 Drake Tax User’s Manual**.

**Income from Pass-Through Entities (Schedule K-1)**

If the estate or trust received a Schedule K-1 from a pass-through entity, the corresponding lines on Form 1041 should be used to report the interest, dividends, capital gains, etc., from the pass-through entity.

In Drake Tax, use the following screens (available from the **Income** tab of the **Data Entry Menu**) to report income from a pass-through entity:
• **Screen K1P** — For a Schedule K-1 issued by a partnership  
• **Screen K1F** — For a Schedule K-1 issued by another fiduciary, estate, or trust  
• **Screen K1S** — For a Schedule K-1 issued by an S corporation

Enter information directly into a K1 screen, or import K-1 information from a pass-through entity into a fiduciary return.

When the return is generated, the amounts from pass-through entities flow to the corresponding lines on Form 1041. Specifically where the amounts flow depends on the type of entity. In most cases, the amounts flow to page 2 of Schedule E, but in certain cases, the amounts flow to Form 4797, Form 3800, or page 1 of Schedule E.

**NOTE**  
For information on completing Schedule K-1 (Form 1041) used to report a beneficiary’s share of income, deductions, and credits from either the trust or the decedent’s estate, see “Schedule K-1” on page 20.

### Form 8960 Entries

For entering amounts that you want to flow to Form 8960, Net Investment Income Tax, click the **1065 K1 13-20** tab at the top of the K1P screen, the **1041 K1 12-14** tab at the top of the K1F screen, or the **1120S K1 12-17** tab at the top of the K1S screen.

![Form 8960 entries](image)

**Figure 3:** The new **Form 8960** section of the **K1** screens

The fields in this section (Figure 3) are adjustment fields that add to or subtract from the calculated amount of Form 8960 by whatever adjusting amount you enter. Drake Tax shows the new calculated amount on Form 8960 and generates a “Form 8960 Attachment” worksheet to show the calculations.

There are also check boxes on screens C, F, and E that relate Form 8960.

### Farm Income or Loss (Schedule F)

**Screen code:** **F**

Use screen F, accessible from the Income tab, to enter farm income or loss. Information from screen F flows to line 6 (“Farm income or loss”) of Form 1041. Screen F in the 1041 package is almost identical to screen F in the 1040 package. For details on completing screen F, see the 2016 *Drake Tax User’s Manual*.

**NOTE**  
Do not use screen F to report farm rental income and expenses based on crops or livestock produced by a tenant. Use screen E instead.
Gain or Loss From Sale of Assets (Form 4797)

*Screen code: F*

Information entered on screen 4797 (accessible from the Assets/Sales tab) flows to line 7 (“Ordinary gain or (loss)”) of Form 1041 or to line 14 of Schedule D. Screen 4797 in the 1041 package is almost identical to screen 4797 in the 1040 package. For details on completing screen 4797, see the 2016 Drake Tax User’s Manual.

Other Income

Use screen 3 to enter amounts for line 8 (“Other income”) of Form 1041. Enter any type of income that is not reported on lines 1 through 7. (For interest income or dividend income, click the appropriate links on lines 1 and 2 to open the INT or DIV screens.) For line 8 (“Other Income”) on screen 3, an entry in the text box opens a Detail Worksheet (CTRL+W) where you enter a description and an amount. Information entered on the Detail Worksheet appears in a Statement when the return is generated.

Items reported on line 8 include:

- Unpaid compensation received by the estate that is IRD (In Respect of Decedent)
- Any part of a total distribution shown on a Form 1099-R that is treated as ordinary income

**W2, W2G, and 1099R Screens**

Links on screen 3 to screens W2, W2G, and 1099R allow the preparer to enter W-2 income, income from gambling, and income from pensions, annuities, retirement, IRAs, etc. These amounts also flow to line 8, “Other Income,” of Form 1041. For details on completing these screens, see “Personal Service Income” and “Gambling Income and Loss” in Chapter 5 of 2016 Drake Tax User’s Manual.

**Form 1099-PATR**

Enter the distribution amount from Form 1099-PATR, Taxable Distributions Received from Cooperatives, on the PATR screen, accessible from the Income tab of the Data Entry Menu.

**Form 1099-OID**

Screen OID, accessible from the Income tab of the Data Entry Menu, gives you a place to enter interest income from Form 1099-OID, Original Issue Discounts.

**State 1099 Screens**

Drake Tax includes two state-only 1099 screens — 99M for miscellaneous income and 99G for unemployment compensation — to the States tab of the Data Entry Menu.

Deductions

The “Deductions” section of Form 1041 comprises lines 10 through 21. Many of the amounts for this section can be entered directly using screen 3, although some amounts are calculated from data entry on other screens in the program.

Deduction Allocation

Deductions can be directed to one of the income types listed on screen 3 (Figure 4 on page 17).
Figure 4: Screen 3, Applying deductions against ordinary income (#1); allocating income type (#2)

Below line 29a on screen 3 is an **Apply deductions against non-capital gain income first** check box (item #1 of Figure 4). If you mark this box, the deductions entered on lines 10 through 15c of screen 3 will be applied against ordinary income and will preserve the preferential tax rate so that the beneficiaries receive maximum capital gain treatment. For more information, see the field help for this check box, or the IRS instructions.

The **Override amount of deductions...** fields on screen 3 (item #2 in Figure 4) allow you to allocate expenses to certain income types rather than allowing the program to allocate the expenses according to character of the income. The total for these boxes should be no more than the total of all deductions on line 16 of the calculated form.

**Interest Deductions**

Use screen 3 to enter interest amounts for line 10 (“Interest”) of Form 1041. See the field-level help for line 10, click **Screen Help** on screen 4952, consult IRS instructions, or see Pub. 550, Investment Income and Expenses, for the types of interest to include on line 10.

Form 4952, Investment Interest Expense Deduction, may be required if the estate or trust wishes to claim a deduction for investment interest expense; see Form 4952 instructions for exceptions. Form 4952 is used for figuring the amount of investment interest expense that can be deducted for the current year, and the amount that can be
carried forward to future years. In Drake, use screen 4952, accessible from the Assets/Sales tab, to complete this form.

**NOTE** The amount of interest entered on line 10 of screen 3 should *not* include the amount from Form 4952.

**Taxes**

Use screen 3 to enter data for line 11 (“Taxes”) of Form 1041. The amount entered here should include any deductible taxes paid or incurred during the tax year that are not deductible elsewhere on Form 1041. See the IRS instruction for the types of taxes that are deductible.

**Fiduciary Fees**

Enter fiduciary fees on line 12 of screen 3. The amount entered here should include any fees the estate or trust paid or incurred to the fiduciary for administering the estate or trust.

**NOTE** Fiduciary fees deducted on Form 706, Estate (and Generation-Skipping Transfer) Tax Return, cannot be deducted on Form 1041.

**Charitable Deductions (Schedule A)**

The amount for line 13 (“Charitable deduction”) flows from Schedule A, line 7. Use the top section of screen 4 to complete fields for Schedule A.

The calculation for Schedule A flows to line 13 when the return is generated. Entries are also shown in the “Schedule A” section on page 2 of the 1041 return. The Worksheet for Tax-Exempt Income (“Wks TAXEX” in View mode) also displays the calculations for charitable contributions allocated to tax-exempt income.

For more on the Worksheet for Tax-Exempt Income, see “TAXEX Worksheet” on page 30.

**Attorney, Accountant, and Return Preparer Fees**

Use screen 3 to enter data for line 14 (“Attorney, accountant, and return preparer fees”) of Form 1041. The amount entered here should include any attorney, accountant, and return preparer fees that were paid or incurred by the estate or trust.

**NOTE** Attorney, accountant, and return preparer fees deducted on Form 706, Estate (and Generation-Skipping Transfer) Tax Return, cannot be deducted on Form 1041.
Other Deductions

Use screen 3 to enter data for lines 15a, 15b, and 15c of Form 1041 (Figure 5).

Figure 5: Lines 15a and 15b on screen 3

Note that line 15a is for other deductions not subject to the 2% floor, while line 15c is for allowable miscellaneous itemized deductions that are subject to the 2% floor.

To override calculated amounts for lines 10, 12, 13, 14, 15a, and 15c, use the WK_TAXEX - Worksheet for Tax Exempt Income section at the bottom of screen 5.

The LOSS link, shown in Figure 5, takes you directly to the LOSS screen, where NOL carryforwards can be recorded.

For examples of deductions that can be reported on lines 15a and 15c, see the IRS instructions for Form 1041.

Income Distribution Deduction

Income distribution deduction information flows from entries made elsewhere in the program. This section covers Schedule B (“Income Distribution Deduction”) and Schedule K-1 of Form 1041.

Schedule B

The amount for line 18 (“Income distribution deduction”) on page 1 of the 1041 return flows from line 15 of Schedule B, Income Distribution Deduction. Schedule B, which is used to determine the estate’s or trust’s income distribution deduction. Entries to Schedule B can be made on screen 4.

Adjusted Tax-Exempt Interest

Adjusted tax-exempt interest is a calculated amount (based on entries made elsewhere in the program, such as screens INT and DIV) that flows to line 2 of Schedule B. The calculated amount can be overridden with entries in the WK_TAXEX section of screen 5. The calculations are shown on worksheet “Wks TAXEX” in View mode.

Sch A, Line 4 Adjustment

Section Schedule B of screen 4 has a field for line 4 (“Adjustments for Schedule A, line 4”) of Schedule B. This field is an adjustment field; an amount entered here is combined with the amount entered on line 4 of Schedule A. (This pertains only to trusts other than simple trusts.)

For an estate or trust other than a simple trust or full grantor type trust, line 9 (and 10 if applicable) must be entered in order for the income distribution deduction to be calculated correctly.
Line 11 ("Total distributions") of Schedule B is calculated automatically by the program when the return is generated. If the calculated amount is greater than the amount on line 8, and your client is filing for a complex trust that has previously accumulated income, Schedule J (Accumulation Distribution for Certain Complex Trusts) may be required. Use screen J, accessible from the Other Forms tab, to complete Schedule J in Drake Tax.

Schedule K-1

Schedule K-1 (Form 1041) is used to report a beneficiary’s share of income, deductions, and credits from either a trust or a decedent’s estate. In Drake Tax, many of the amounts generated on Schedule K-1 flow from elsewhere in the program. Use the override fields on the K1 screen to override program calculations. All income (the total of lines 1-8, excluding 2b, on the K1 screens) on all K-1s should agree with line 18 of Form 1041.

To see the formula used when calculating the amount for Schedule K-1, see worksheet “Wks Sch K-1” in View mode. For general help for the K1 screen, go to FAQ item M, “Help for Schedule K-1.” For information on entering income from a pass-through entity as reported on a Schedule K-1, see “Income from Pass-Through Entities (Schedule K-1)” on page 14.

Schedule K-1, Part I

Part I of the Schedule K-1 (Information About the Estate or Trust), is completed automatically based on the information entered on screen I of Drake Tax. (See “Estate, Trust and Fiduciary Information” on page 10.)

Schedule K-1, Part II

The following beneficiary information must be entered directly on screen K1:

- **ID number** — Enter the beneficiary’s SSN (for individuals). An EIN or other drop list is included to indicate if the ID number is an EIN or if this K-1 is for a Form 1042S, Foreign Person’s U.S. Source Income Subject to Withholding. (Form 1042S does not require an ID number.)
- **Rounding Beneficiary** — Mark this check box to indicate a rounding beneficiary. That beneficiary will be sorted last on the list of beneficiaries, and will be the one who receives any balancing amount on Schedule K-1 when the return is calculated.
- **Name** and **Address** — Separate fields are provided for street address, city, state, and ZIP code. (As with most address fields in Drake Tax, an entry in the ZIP code field automatically fills in the city and state fields.) To use the foreign address fields, enter data in the Address and City fields, click in the Foreign ONLY Province/State field, then enter the name of the foreign province or state, as appropriate. Select the appropriate foreign country from the drop list and then enter the postal code, if appropriate.
- **Resident State** — Select the resident state from the drop list, if needed.
- **Percentages** — Use the Fed% and State% fields to indicate the percentage of income, deductions, or credits that the beneficiary received. For instance, to divide the income, deductions, or credits equally among four federal K-1s, enter 25—for 25 percent—in each beneficiary’s Fed% text box.
• **Foreign beneficiary** — Mark the **Foreign beneficiary** box to indicate that the beneficiary is a nonresident alien individual, a foreign corporation, or a foreign estate or trust

The **K1** screen also has check boxes for indicating an **Amended K-1** and a **Final K-1**.

**NOTE**

From the **K1** screen, press **PAGE DOWN** to create additional K-1 schedules.

**Schedule K-1, Part III**

Part III, “Beneficiary’s Share of Current Year Income, Deductions, Credits, and Other Items,” of Schedule K-1 is completed automatically by the program based on information entered elsewhere in the program. Use the corresponding fields on screen **K1 only** if you want to override program calculations for a particular item. For instance, if you place an entry in the override field of line 2a, “Ordinary dividend,” the program accepts this amount (up to the amount in column A of the “Wks Sch K-1” worksheet in View mode); otherwise the program uses the amount calculated on “Wks Sch K-1” worksheet multiplied by the beneficiary’s percentage.

**Flow of Depreciation**

To have the applicable amount of depreciation, depletion, and amortization flow to Schedules C, E, or F rather than to line 9 of the beneficiary’s Schedule K-1, go to screen 5 and mark the **K1** box that states, **Carry the applicable amount...** (The trust instrument, state law, or federal law should provide guidance.) Note that an estate or trust cannot make an election under section 179 to expense certain tangible property.

**K-1 Cover Letters**

You can select to generate K-1 cover letters with all 1041 returns. From the **Home** window of Drake Tax, go to **Setup > Options > Optional Documents** tab and mark the **Include K-1 letters with returns** check box. The letters will contain the name and title entered on the **PIN** screen of the person who will sign the letters.

To generate these letters on a per-return basis, clear the check mark at **Setup > Options > Optional Documents** tab, and in each return, follow these steps:

1. Open the **K1L** screen, accessible from the **Miscellaneous** tab, for the return. (This is also the **LTR** screen.)
2. At the bottom of the screen, type in the name and title of the person who will sign the K-1 cover letter. (See NOTES, following.)
3. (optional) To have the **fiduciary’s** name and address appear in the letterhead of the K-1 cover letters, from the **Home** window go to **Setup > Communications Editor > Setup > Page Layout** and select **Use letterhead on letters**. The letterhead is derived from information entered on screen 1.
4. (optional) To have **your firm’s** contact information and logo printed in the letterhead of the K-1 cover letters, select **Print firm info/logo** from the **Information on the K-1 coversheet...** drop list at the bottom of the **K1L** screen.
5. (optional) Select **Don’t Print Entity Info** from the **Information on the K-1 coversheet...** drop list at the bottom of the **K1L** screen in order to prevent the fiduciary’s or your firm’s name and address from appearing in the header of the K-1 letter.
Once the required signing information has been entered, a K-1 cover letter will be generated for each shareholder receiving a K-1.

To print the coversheet with the letter, (globally), go to Setup > Options > Optional Documents tab, and make a selection from the K-1 Address field of the Envelope Sheet section. To print a coversheet on a per-return basis, go to the PRNT screen (available from the Miscellaneous tab of the Data Entry Menu) of the return and make a selection from the Print K-1 envelope coversheet drop list.

Review the following sections of the 2016 Drake Tax User’s Manual before making changes to letter templates:

• “Introduction to Letters in Drake” in Chapter 2, Installation & Setup
• The “Letter Keywords” section of Appendix B, Keywords

For an amended return, the K-1 letter automatically refers to the amended K-1. To edit the letter for an amended K-1, from the Home window of Drake Tax, go to Setup > Communications Editor. Click Open > Fiduciary > Fiduciary K1 Amended Letter. Follow the steps outlined in “Introduction to Letters in Drake” in Chapter 2 of the 2016 Drake Tax User’s Manual to make changes in the letter.

NOTE

For an amended return, the K-1 letter automatically refers to the amended K-1. To edit the letter for an amended K-1, from the Home window of Drake Tax, go to Setup > Communications Editor. Click Open > Fiduciary > Fiduciary K1 Amended Letter. Follow the steps outlined in “Introduction to Letters in Drake” in Chapter 2 of the 2016 Drake Tax User’s Manual to make changes in the letter.

K1G General Explanation

Use the K1G screen (accessible from the General tab of the Data Entry Menu) to create statements that allow you to explain any entry on Schedule K-1.

From the K1 Line and Code drop list of the K1G screen, select the line and code number for that line that you wish to include an explanation for. From the ID and Name drop list, select a K-1 recipient. (Only those beneficiaries for whom you have created a K1 screen appear in the drop list.) In the General Explanation text box, include your explanation. Press PAGE DOWN to add another explanation.

A statement is created for each K-1 line explained for the beneficiary selected from the ID and Name drop list.

The statements can printed together on one page or on separate pages in View mode, depending on your selection at Setup > Options > Calculations & View/Print tab. Mark or clear the Print only one overflow statement per page check box.

Omit an entry from the ID and Name field to include the statement for all K-1 recipients.

K-1 Export

Take the following steps to export K-1 information from a fiduciary return into the K1F screen of a 1040 return:

1. Ensure that K-1 data is entered in the fiduciary return and that the 1040 return has been created in Drake Tax. (The K1F screen in the 1040 does not have to be created beforehand.)
2. In the fiduciary return, go to View mode.

3. Click K1 Export in the View toolbar. If any K-1s are not eligible to be exported, that list appears. Click Next to continue; otherwise, the Export K1s window is opened, containing a list of K-1s eligible for export.

4. All SSNs in the list are eligible for export. Remove the check mark from the box to the left of any SSNs you do not wish to export.

5. Click Export. The K-1 data will be displayed in the 1040 return in the program.

Greater Export Flexibility

New for 2016: An Additional Entries tab (Figure 6) has been added to the K-1 “source” screens (K1P, K1S, K1F) in all packages. This new tab offers 40 more fields for entering and exporting additional K-1 items.

Figure 6: Additional entries tab on the K-1 “source” screen K1P

Estate Tax Deduction

If the estate or trust includes income in respect to a decedent (IRD) in its gross income, and such amount was included in the decedent’s gross estate for estate tax purposes, the estate or trust is allowed to deduct, in the same tax year, that portion of the estate tax imposed on the decedent’s estate that is attributable to the inclusion of the IRD in the decedent’s estate.

Use the Estate Tax Deduction screen—accessible from the Other Forms tab of the Data Entry Menu or through the link on line 19 of screen 3—to enter data for this line. Amounts entered on the Estate Tax Deduction screen generate worksheet “Wks Est Tax,” with calculations flowing to line 19 (“Estate tax deduction including certain generation-skipping taxes”) of Form 1041, and box 10 (“Estate Tax Deduction”) of the Schedules K-1.

For details, see the field helps and Screen Help on the Estate Tax Deduction screen.

Exemption

The amount on line 20 (“Exemption”) is an automatic entry, determined by the type of entity filing the return.

- Trusts that must distribute all income are allowed a $300 exemption. (Other types of trusts receive a $100 exemption.)
**Tax and Payments**

For the “Tax and Payments” section of the Form 1041, the totals come from information entered on screen 3 and elsewhere in the program.

**Tax Computation (Schedule G)**

The “Total Tax” amount on Form 1041 flows from Schedule G calculations. Drake Tax makes these calculations when generating the return; results are shown on line 7 of the “Schedule G” section on Form 1041, page 2, with the total tax flowing to line 23 of page 1.

Much of the information used to figure the total tax comes from data entered elsewhere in the program (such as for tax credits), but some comes from direct entry in the “Schedule G” section of screen 4.

**Lump-Sum Distributions**

An amount on line 1b of Schedule G comes from calculations made when data is entered on screen 4972, accessible from the Taxes tab of the Data Entry Menu.

**Alt Min Tax**

Schedule I (Form 1041), Alternative Minimum Tax - Estates and Trusts, is used to compute the DNI, income distribution deduction on a minimum tax basis, and the estate’s or trust’s alternative minimum tax (AMT). In Drake Tax, all Schedule I computations are made automatically. To override any of the calculated amounts, use screen I, accessible from the Other Forms tab.

**Note**

No entries are required on screen I unless you want to override the amounts that are automatically calculated by Drake Tax.

Schedule I is printed with the return only when needed. To force the program to print Schedule I, go the PRNT screen (accessible from the Miscellaneous tab) and select Print Form 1041-I (Schedule I - AMT) in the Items to Print section.

**Credits**

To claim a credit other than those appearing on lines 2a through 2d of Schedule G, use the fields on line 2e in the Schedule G section of screen 4. In the first field of line 2e, enter the form number, and in the second field, enter the dollar amount for the credit. Other credits are claimed by entering amount directly onto data entry screens. (Most of these credits are listed on the Credits tab of the Data Entry Menu.)
Foreign Tax Credit

Line 2a (“Foreign tax credit”) of Schedule G is calculated by the program based on information entered on screens DIV (Dividends), INT (Interest), and 1116 (for Form 1116, Foreign Tax Credit). There is no input field for line 2a on screen 4.

General Business Credits

Use screen 3800 (available from the Credits tab) to claim current-year business credits that are not supported by Drake Tax. In Part III - General Business Credits, enter the amounts of nonpassive and passive activities of the unsupported credits.

NOTE

Returns with these current-year credit forms that are not supported by Drake Tax must be paper-filed.

Enter any unused current-year credit being carried back and used in 2015 in the Amount of Carryback text box.

Carrybacks and Carryforwards

Use screen GBC (available from the Credits tab) for reporting general business credit (GBC) and eligible small business credit (ESBC) carrybacks and carryforwards, and to enter passive activity credit carryforwards for Form 8582-CR.

Screen code: GBC

To use the GBC screen:

1. Mark an appropriate check box at the top of screen GBC.
2. If appropriate, enter an EIN in the Activity EIN field; if that EIN matches one entered on a K1 screen, the program will match the passive activity carryforward to the current-year credit for Form 8582-CR.
3. Enter the Activity Name (required for computing Form 8582-CR worksheets correctly).
4. From the Description of credit drop list, select the description of the credit for the amounts being carried forward from prior years or being carried back from a future year. If necessary, enter the Amount Changed Information if the amount changed from the original amount of the credit.
5. In the Year Originated drop list, select the year the credit was originally generated and the amount of the credit for the year generated.

Press PAGE DOWN to enter the carryforward or carryback amounts of another credit.

For more on using screen 3800, see “General Business Credits” in Chapter 5 of 2016 Drake Tax User’s Manual.

TIP

In the Amount of Original Credit Previously Used section of screen GBC, type in the amounts of credit carryforward used in a previous years for a true historical record. The program will compute the remaining amount of the credit each year you use Drake Tax; otherwise, only what’s left.
NOTE An amount on Form 3800, General Business Credit, may prevent the return from being eligible for e-file.

Prior-Year Minimum Tax

Credit for prior-year minimum tax flows from Form 8801, Prior Year Minimum Tax, to line 2c of Schedule G. In Drake Tax, you can fill out prior-year minimum tax information on screen 8801. The 8801 screen is accessible from the Credits tab.

Bond Credit

Bond credit flows from screen 8912 to line 2d of Schedule G. In Drake, you can fill out bond credit information on screen 8912. The 8912 screen is accessible from the Credits tab.

Net Investment Income Tax

Use screen 8960, Net Investment Income Tax, to complete Form 8960, Net Investment Income Tax – Individuals, Estates, and Trusts, used to report the 3.8 percent Net Investment Income Tax that applies to individuals, estates and trusts that have certain investment income above certain threshold amounts. Screen 8960 is available from the Taxes tab.

Such administrative costs as fiduciary fees, attorney fees, and accountant fees, return preparer fees–used to determine the proper amount of adjusted gross income used in the calculation of net investment income tax–are entered on lines 12 and 14 of screen 3. You can override the amounts used for the AGI calculations by using the override fields on screen AGI (available from the Other Forms tab).

Administrative costs other than fiduciary, attorney, accountant, and return preparer fees should be entered on the line 15a of screen AGI.

Most of the fields on screen 8960 are override fields: entries in the fields override system calculations.

Recapture Taxes

If the estate or trust disposed of investment credit property or changed its use before the end of its useful life or recovery period, fill out Form 4255, Recapture of Investment Credit (screen 4255, available from the Assets/Sales tab) and figure the recapture allocable to the estate or trust. When the return is generated, the amount flows from the 4255 screen to line 5 of Schedule G.

If the estate or trust disposed of property (or there was a reduction in the qualified basis of the property) on which the low-income housing credit was figured, fill out Form 8611, Recapture of Low-Income Housing Credit. There is no screen in Drake Tax for Form 8611. A blank copy is available from Tools > Blank Forms. Once the amount of recapture credit has been figured using this form, enter that amount in the corresponding field of line 5 in the Schedule G section of screen 4.

Household Employment

Household employment taxes are reported on Schedule H (screen H in Drake Tax, accessible from the Taxes tab). When the return is calculated, the total flows to line 6 of the Schedule G.
Line 7 Computation

If an obligation arising from the disposition of real property to which section 453A or section 453(l) applies is outstanding at the close of the year, the estate or trust must include the interest due under section 453(l) or section 453A(c) in the amount to be calculated for line 7 of Schedule G, Form 1041. A statement showing the computation is also required.

From line 7 of the Schedule G section of screen 4, click the Required STM link to open the SCH (Unformatted Statement) screen (Figure 7). (If you have entered other statements, an Existing Forms list is opened. Double-click the New Record line to open a new statement window.)

From the Type of attachment/statement number and title drop list, select “021 - 1041 Sch G Ln 7, deferred tax.” In the large text pane, show your computations for the amount you entered on line 7 of screen 4.

Figure 7: From the SCH screen, select “021” from the drop list and show your computation in the text box

For more information, see the IRS instructions for Form 1041.

Payments

Generally, an estate or trust must pay estimated income tax if it expects to owe $1,000 or more in tax, and expects the withholdings and credits to be less than the smaller of:

- 90% of the tax shown on the current-year return
- 100% of the tax shown on the prior-year return

NOTE Estates are not required to pay estimated tax within the first two years of creation.

Estimated Payments and Amount Applied from Prior Year

Pay quarterly and total amounts on the ES screen, accessible from the Taxes tab.

- Estimated Taxes — Enter the estimated taxes due for 2017 on the right side of the screen in the fields of the Estimate amount column. From the ES Code drop list, choose how you want payment vouchers to be printed with the return. (Press F1 to view the full code descriptions.)
- Overpayment of Taxes — For overpayment of taxes, make a selection from the OP Code drop list and enter the amount of the overpayments in the applicable text boxes on the right side of the screen. (Press F1 to view the full code descriptions.)
Other Features of ES Screen

Three other features on the Estimated Taxes (ES) screen:

- The program automatically generates federal estimated tax payment vouchers when they are required—for instance, when the taxpayer has a balance due of $1,000 or more—unless you choose to not generate the vouchers.
- If you are not filing four quarterly vouchers—for instance, if filing too late to pay first quarter payment—the program adds the amount of the missed payment to the next available voucher. Enter “0” in the Estimate amt voucher field for quarter the payment was not be made.
- An Increase/Decrease calculated estimates by... text box on the ES screen allows you to adjust the total estimated taxes due.

Estimated Payments Allocated to Beneficiaries

Form 1041-T, Allocation of Estimated Tax Payments to Beneficiaries, is used to elect, under section 643(g), to have all or part of an estate or trust’s estimated tax payments (but not income tax withheld) treated as having been made by the beneficiary or beneficiaries.

To enter estimated tax payments that are allocated to the beneficiaries and to generate Form 1041-T, Allocation of Estimated Tax Payments to Beneficiaries, open screen 3 and go to line 24b. Enter in this field any of the estimated tax paid on Form 1041-ES that is allocated to the beneficiaries. This amount flows to line 10 of Schedule B (line 9 for simple trusts), Schedule K-1, and to Form 1041-T if the K1 screens contain data.

- If an amount is entered in field on line 24b of screen 3, a filing date is required. Form 1041-T must be filed within 65 days of the end of the tax year or the election is invalid.
- A 1041 return with an amount on line 24b of screen 3 may not be e-filed.
- The election to allocate estimates to beneficiaries can be made only by a trust, or in the final year of an estate.

Tax Paid with Extension

If Form 7004 was filed previously and Form 1041 is now being filed, use screen EXT (available from the Other Forms tab of the Data Entry Menu) and mark the Extension was previously filed... check box, enter the amount of tax paid with the extension, and the date the tax was paid with the Form 7004.

For more information on filing Form 7004, see “Filing an Extension” on page 43.
Federal Income Tax Withheld

Federal income tax withheld reported on screens 8949, 1099, INT, DIV, W2, W2G, K1P, K1F and K1S flows to line 24e of Form 1041 automatically. This includes any federal income tax withheld (and not repaid) by:

- An employer on wages and salaries of a decedent received by the estate
- A payer of certain gambling winnings (such as state lottery winnings)
- A payer of distributions from pensions, annuities, retirement, or profit-sharing plans, IRAs, insurance contracts, etc., received by a decedent’s estate or trust

Any amount entered on screen 3, line 24e (“Federal income tax withheld”) adjusts the calculated amount. Select the Mark if any is from Form 1099 check box if any federal income tax withheld and entered on this line is from Form 1099. This box will automatically be marked if federal tax withholdings are entered on screen INT, DIV or 1099R.

NOTE

Except for backup withholding, withheld income tax may not be passed through to beneficiaries on either Schedule K-1 or Form 1041-T.

Other Payments (Forms 2439 and 4136)

Lines 24f and 24g of Form 1041 are used to report other payments from Form 2439 (Notice to Shareholder of Undistributed Long-Term Capital Gains) and the refundable credit from Form 4136 (Credit for Federal Tax Paid on Fuels), respectively.

For Form 2439, complete screen 2439; the calculated amount flows from that screen to line 24f of Form 1041. Screen 2439 is accessible from the Assets/Sales tab of the Data Entry Menu.

The line 24g amount comes from calculations of the fuel tax credit from Form 4136, Credit for Federal Tax Paid on Fuels. Use screen 4136 (accessible from the Credits tab) to complete Form 4136; the calculated credit flows to line 24g of Form 1041.

NOTE

Screen 4136 consists of two screens. The first screen covers lines 1 through 8f, and the second screen covers lines 9 through 16b. To access the second screen from the first, press PAGE DOWN.

Estimated Tax Penalty

Form 2210, Underpayment of Estimated Tax by Individuals, Estates, and Trusts, is used to determine whether a penalty is owed for underpaying estimated tax, and to determine the amount of the penalty. In Drake Tax, use screen 2210 (accessible from the Taxes tab or the 2210 link on screen 3) to complete Form 2210. When the return is generated, the calculation from screen 2210 flows to Form 1041, line 26 (“Estimated tax penalty”).

If screen 2210 is not used, a tax penalty amount can be directly entered on line 26 of screen 3. If you do use screen 2210, an entry on screen 3 is not necessary. If you use the 2210 screen and enter a number on line 26 of screen 3, the program overrides the
calculated amount from screen 2210 and used the screen 3 entry on line 26 of the form.

To calculate the tax penalty, the program uses the amount of tax paid from the previous year. If the return was not updated from last year, you must manually enter the amount of tax paid. To do so, go to screen 1 and complete the 2210 Information section on the lower right side of the screen.

For details on using the enhanced ES screen for filing federal estimated taxes, and on e-filing and paying state estimated taxes, see “Estimated Taxes” in Chapter 5 of the 2016 Drake Tax User’s Manual.

Other Information

To complete the “Other Information” section on page 2 of Form 1041, use the Yes/No check boxes and other fields provided on screen 5. The following sections provide additional information on completing this part of Form 1041.

Tax-Exempt Income

If the estate or trust received tax-exempt income, the total is calculated from amounts entered on other screens for tax-exempt income — for instance, on line 8 of INT screen or line 10 of the DIV screen. The “Yes” column in the “Other Information” section of page 2 of Form 1041 is marked and the amount appears on line 1 (as noted in Figure 8):

![Figure 8: Notation on line 1 of the “Other Information” section that tax-exempt interest and/or dividends were received and shows the amount](image)

If the estate received tax-exempt income not included in interest or dividends as reported on the INT and DIV screens, enter that amount at the top of screen 5. Such tax-exempt income might include, for example:

- Certain death benefits (section 101)
- Compensation for injuries or sickness (section 104)
- Income from discharge of indebtedness in a title 11 case (section 108)

TAXEX Worksheet

If tax-exempt interest and certain deductions are present in the return, the program produces a Worksheet for Tax-Exempt Income (Wks TAXEX). The worksheet consists of four statements:

- Part I: Tax-Exempt Ratios
- Part II: Allocation of Tax-Exempt Income
• Part II: Schedule B, Line 12 Computation
• Part IV: Schedule B, Line 2 Computation

The amounts and other information on this worksheet are calculated by the program; however, you can override certain lines on the worksheet as needed. To do so, use the **WK_TAXEX - Worksheet for Tax Exempt Income** section at the bottom of screen 5. These fields allow you to override program calculations for charitable contributions, fiduciary, attorney, accounting, and preparer fees, other administrative fees, and other deductions allocable to tax-exempt income.

**Tax-Exempt Income**

Line 12 of Schedule B on screen 4 is an override field. The software does the calculation for this line on Schedule B—the amount of tax-exempt income on line 11, “Total distributions”—without an entry here, but there might come a time when you wish to override the calculated amount. You can make that override on line 12.

**Foreign Bank Information**

If the estate or trust had an interest in or signature over a bank, securities, or other financial account in a foreign country, click the **Yes** check box on line 3 of screen 5 and make the appropriate selections from the foreign country drop lists.

If that interest exceeded certain thresholds, the Bank Secrecy Act may require the estate or trust to report to e-file a Report of Foreign Bank and Financial Accounts (FBAR) annually. For help on understanding which estates and trusts must file a FBAR, click the **Who Must File** link on line 3 of screen 5. (An Internet connection is required.)

To complete FinCEN Form 114 in Drake Tax, go to screens FRGN and 114 (accessible from the new **Foreign** tab of the **Data Entry Menu**). To file the form, click the **BSA E-Filing System** link to the Financial Crimes Enforcement Network’s website near the top of screen 114.

**IMPORTANT**

Allow yourself time to read and understand all the information available on the BSA website and to register as a BSA e-filer.

**Seller-Provided Financing**

If the estate or trust is claiming an interest deduction for qualified residence interest paid on seller-provided financing, the IRS requires an attachment with the name, address, and taxpayer ID of the seller. To enter this information, click the **Paid** link on line 5 of screen 5 to open the **Qualified Residence Interest Paid on Seller-financed Mortgage** screen. This screen accepts information for up to three sellers. Entering information on this screen generates an indicator in the “Yes” column on line 5 in the “Other Information” section on page 2 of Form 1041 and generates a statement containing information on the sellers.

If the estate or trust received seller-financed mortgage interest, go to the INT screen, at the top of the screen mark the **Seller-financed mortgage** check box, then complete the **Payer’s Information** section.
To enter information on an installment sale, click the 6252 link from line 5 of screen 5.

**Estate Open Two+ Years**

Mark box 8 on screen 5 if the decedent’s estate has been open for more than two years. The IRS requires a separate explanation for the delay in closing the estate. To create this explanation in the program, go to the SCH screen, select R from the **Type of attachment** drop list, enter the explanation in the large text box on that screen, and enter a title at the bottom of the screen. A statement entitled “REG_NOTE” is generated in View mode.

**Elections**

The **ELEC** screen allows the preparer to make various “elections” from the IRS code. If you mark a box on this screen, go to the SCH screen to produce a statement for the election. From the **Type of attachment** drop list on the SCH screen, select **E - Election Explanation**, as shown in Figure 9. Enter an explanation for the election in the text box. At the bottom of the screen, enter a title for the statement if you wish.

![Figure 9: Completing election statement on SCH screen](image)

The program produces a Preparer Note (listed as “Election” in View/Print mode) noting the election selected (Figure 10).

![Figure 10: The election explanation appears as an “Election” statement](image)

**NOTE**

Making these elections and completing these statements does not change the calculation of the return.

**Safe Harbor Elections**

Among the choices you can make from the **ELEC** screen:

- Sec. 1.263(a) - 1(f) de minimis safe harbor election
- Sec. 1.263(a) - 3(n) Election
Election statements are generated with the return (Figure 11).

![Figure 11: Election statements generated with ELEC screen selection](image)

The Sec. 1.263(a) - 3(h) election can be made from either the ELEC screen or the 4562 screen. An election statement will be produced and the building description as entered in the Description field will be included in the election statement.

**NOTE**

### The PDF Attachment Process

Binary, or PDF, files can be attached to certain tax forms in the Fiduciary package. All such documents are attached through use of the PDF Attachments screen, accessible from the Electronic Filing and Banking section on the General tab of the Data Entry Menu.

Three main steps are involved in the PDF attachment process in Drake:

1. Creating a PDF document to be attached
2. Informing the program that a PDF document will be sent with the return
3. Attaching the PDF document for e-file

These steps are described in the following sections.

#### Creating a PDF File

To create a PDF file:

1. Scan the document to be attached to the return.

**TIP**

It’s a good idea to use the scanning feature of Drake Documents (formerly known as the DDM) for this step.
2. Save the document to your client’s Drake Documents file, your computer’s desktop, or anywhere you can readily find it.

**NOTE**

Many types of documents (for instance, documents created in Microsoft Word) can be printed or “saved” as PDF documents if you have a PDF printer (such as Adobe Reader) installed.

---

**Adding PDF Documents in Drake Tax**

To indicate in the software that a PDF document will be sent with the return:

1. Open the return in Drake. From the **Data Entry Menu**, click **PDF Attachments**, accessible from the **Electronic Filing** section of the **General** tab (or type **PDF** in the selector field and press **ENTER**) (Figure 12).

![Figure 12: Select PDF Attachments, or type PDF into the selector field and press ENTER](image)

2. Fill out the columns on the **PDF Attachments** screen. See Table 1 for examples.

**Table 1: PDF Attachment Window Columns**

<table>
<thead>
<tr>
<th>Name of Column</th>
<th>Description</th>
<th>Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Reference Source</strong></td>
<td>Name or number of regulation, publication, or form instruction that makes attachments necessary</td>
<td>- IRS Pub xxx-1.4</td>
</tr>
<tr>
<td></td>
<td>(This field is for your records only; it is not transmitted with the PDF.)</td>
<td>- Form Instructions for 1041</td>
</tr>
<tr>
<td><strong>Description</strong></td>
<td>Description of form or document to be attached</td>
<td>- Title of house on Oak Street</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Appraisal of Lot 1234</td>
</tr>
<tr>
<td><strong>File name</strong></td>
<td>Distinctive, easily recognizable file name, followed by “.pdf”</td>
<td>- TitleHouseOakSt.pdf</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- AppraisalLot1234.pdf</td>
</tr>
</tbody>
</table>

3. Exit the **PDF Attachments** window.

Because you’ve indicated that a PDF document is attached, the program generates an EF Message regarding the attachment when the return is calculated.

---

**Attaching Documents to the Return**

To attach a PDF file to a return:

1. From the return, click **View**. If anything was entered in the **PDF Attachments** window (see “Adding PDF Documents in Drake Tax,” above), there will be two PDF–related items in the **View/Print** window:
• An EF Message alert (item #1 in Figure 13)
• An Attach PDF button on the toolbar (item #2 in Figure 13)

2. Click the MESSAGES file to view EF Messages, including information on how to attach the required documents to the return.

3. Click the Attach PDF button. The EF PDF Attachments window displays the information entered on the PDF Attachments screen in data entry. A red X means the document has not yet been attached; a green check mark indicates an attached document (Figure 14).

4. Click the row of a document to attach.

5. Click Browse to search for to the proper folder, select the PDF file to attach, and click Open (or double-click the file name).

Repeat for all documents with a red X. When all documents have been attached to a completed return (and show a green check mark), recalculate the return. If all EF Messages have been resolved, the return is ready to be e-filed.
Form 3115, Application for Change in Accounting Method

Form 3115, Application for Change in Accounting Method, is an application to the IRS to change either an entity’s overall accounting method or the accounting treatment of any material item.

Drake Tax customers can fill out and e-file Forms 3115 and related schedules and attachments for trust and estate returns.

Form 3115 is eligible for e-file, although, in some instances, Form 3115 must still be paper-filed. See IRS instructions for details.

Applicants filing Form 3115 should refer to Rev Proc. 2015-13 for general automatic change procedures, and to Rev Proc. 2015-14 for a list of automatic changes to which the automatic change procedures in Rev. Proc. 2015-13 apply.

Accessing Screens for Changing Accounting Method

Several screens may be required to complete Form 3115. These screens are accessible from the Change in Accounting Method box, located under the Other Forms tab of the Data Entry Menu (Figure 15).

The screens accessible from the Change in Accounting Method section include:

- Screen 3115 (Change in Accounting Method) — Used to access fields for Form 3115, including Schedules A through D
- Screen 311E (Schedule E) — Used to request a change in depreciation or amortization methods
- Screen ATT (Explanations and Attachments) — Used to create and view certain attachments to be generated by the software
- Screen ATT2 (Pt II Ln 14 & Pt III Ln 24b Attachment) — Used to complete certain parts of Form 3115 that require specific attachments
**Multi-form Codes**

All 3115 and related screens contain a **Multi-form code** text box (shown in Figure 16) that allows you to link a screen or attachment to a particular Form 3115.

If submitting more than one Form 3115, assign a multi-form code to each new application you create in Drake Tax. The first should be “1,” the second “2,” and so on.

When using other screens, such as the 311E or ATT screens, you can use those numbers to indicate which instance of Form 3115 the 311E or ATT screen should be associated with.

**NOTE**

If only one Form 3115 is being submitted, you do not need to enter anything in the **Multi-form code** box.

### Form 3115 Screens

When you open the 3115 screen from the **Data Entry Menu**, the program displays the first of six 3115 screens. These six screens are:

- **Parts I** (Form 3115, Application for Change)
- **Parts II** (Parts II, Information for All Requests)
- **Parts III, IV** (Form 3115, Parts III and IV)
- **A, B, C** (Schedules A, B, and C)
- **D - I, II** (Schedule D, Parts I and II)
- **D - III** (Schedule D, Part III)

As shown in Figure 16, you can access these 3115 screens by clicking a link at the top of any other 3115 screen.

![Figure 16: Tab links on 3115 screen](image)

**Other Screens**

Drake Tax provides numerous screens that are not always needed for completing Form 1041. These screens are accessible through the **Assets/Sales** tab, the **Credits** tab, the **Taxes** tab, and the **Other Forms** tab. Most of them work in the 1041 program just as they do in the 1040 program. Information on these screens and forms is available in the 2016 *Drake Tax User’s Manual*.

The following sections provide further information on these screens.
Assets/Sales

Most screens accessible from the Assets/Sales tab are similar to those in the 1040 package.

Available Assets/Sales Screens

Many of the Assets/Sales screens have been covered elsewhere in this manual. Listed in Table 2 are those that are available but are not covered in this document.

<table>
<thead>
<tr>
<th>Screen</th>
<th>Schedule or Form</th>
</tr>
</thead>
<tbody>
<tr>
<td>4684</td>
<td>Form 4684, Casualties and Thefts</td>
</tr>
<tr>
<td>6252</td>
<td>Form 6252, Installment Sale Income</td>
</tr>
<tr>
<td>6781</td>
<td>Form 6781, Gains and Losses From Section 1256 Contracts and Straddles</td>
</tr>
<tr>
<td>8824</td>
<td>Form 8824, Like-Kind Exchanges</td>
</tr>
</tbody>
</table>

Get more information on these screens by clicking Screen Help, by pressing F1 in the various fields of the screens, or by reading about the equivalent screens in the 2016 Drake Tax User’s Manual.

Depreciation

Use the Depreciation Detail (4562) screen to enter depreciable assets for Schedule C, Schedule E, or Schedule F or the Auto Expense worksheet (Wks Auto in View mode). For more information on depreciation and the 4562 screen (Form 4562, Depreciation and Amortization) in Drake Tax, see the 2016 Drake Tax User’s Manual.

NOTES

IRS rules do not allow section 179 depreciation in 1041 returns. Drake Tax produces one Form 4562 for each property on Schedule E instead of one 4562 per Schedule E.

Credits

A number of credits are allowed on Form 1041 even though they were not allowable on the decedent’s final income tax return. For more information on credits, see the “Credits, Tax, and Payments” section of IRS Pub. 559, Survivors, Executors, and Administrators.

Available Credit Screens

As is the case on the Assets/Sales tab, most of the screens available through the Credits tab are identical to their counterparts in 1040 returns. Many of the Credits screens have been covered elsewhere in this manual. Listed in Table 3 are those Credits screens that are available but are not covered in this document.

<table>
<thead>
<tr>
<th>Screen</th>
<th>Form and Credit</th>

<td>Preparer Information Overrides</td>
</tr>
</tbody>
</table>

### Miscellaneous Codes for Tracking

At the right side of screen 1 are two Misc code fields that can be used for tracking purposes. For more information on using these miscellaneous codes, see “Customized Drop Lists” in Chapter 2: “Installation & Setup” of 2016 Drake Tax User’s Manual.

### Form 1041-A

Form 1041-A, U.S. Information Return Trust Accumulation of Charitable Amounts, is used to report the charitable information required by section 6034 and the related regulations. It must be filed by a trustee if the trust claims a charitable or other deduction under section 642(c) unless an exception applies; see IRS instructions for more information.

If the trustee must file Form 1041-A, go to the 1041-A tab, from which you can access screens for Parts I, II, III, and IV of Form 1041-A. You can also open screen 8868 (for an extension application) from this tab.

**NOTE**

If filing an extension for Form 1041-A, mark the Form 1041-A check box on screen 8868.

### Form 5227

Form 5227, Split-Interest Trust Information Return, is used to report the financial activities of a split-interest trust, provide certain information regarding charitable deductions and distributions of or from a split-interest trust, and determine if the trust is treated (for Chapter 42 excise tax purposes) as a private foundation and subject to certain excise taxes under Chapter 42.

To access screens for completing Form 5227, go to the 5227 tab of the Data Entry Menu. You can open screen 8868 (for an extension application) from this tab also.
Schedule A of the form is used to report accumulations of income for charitable remainder trusts, distributions to non-charitable beneficiaries, and information about donors and assets contributed during the year.

Use the distribution screen (DIST) to report distributions on Form 5227 for split-interest trusts. Access the DIST screen from the 5227 tab of the Data Entry Menu.

Entries on the DIST screen flow to the Schedules K-1 based on percentages entered on the K1 screens.

Form 5227 must be paper-filed. See Drake Software’s Knowledge Base for articles on filing the form.

**NOTE** If filing an extension for Form 5227, mark the Form 5227 check box on screen 8868.

### Signing the Return

A 1041 return must be signed by the fiduciary or authorized representative. You can use Form 8879-F or Form 8453-F to provide a signature for an e-filed return.

**Form 8879-F**

Form 8879-F, IRS e-file Signature Authorization for Form 1041, should be used if the preparer is a paid preparer whose information and PIN have been recorded in Setup > Preparer(s) and if the fiduciary wants to use a Personal Identification Number (PIN) to electronically sign the return. This form also serves as consent to electronic funds withdrawal (direct debit) for payment of balance due.

To e-file using Form 8879-F, complete all fields on the PIN screen, including the title and signature (Representing Officer field) of the fiduciary or officer.

**Setup > ERO** must still be completed for e-file. See the IRS instructions for further details on signature requirements.

If the return is not prepared by a paid preparer, go to screen 1 and select None for Firm # and Preparer #. Use Form 8453-F to file the return electronically.

To use an alternative electronic signature, see the field-level help for the Alternative Electronic Signature PIN text box on the PRNT screen (available from the Miscellaneous tab).

**NOTES**

You can take advantage of the e-Signature feature of Drake Tax and use an electronic signature pad to sign—and have your client sign—Form 8879-F.

For details, see Chapter 6, “Return Results,” of the 2016 Drake Tax User’s Manual.

### Amending a Return

To file an amended Form 1041:
1. Open screen 1 and select the **Amended return** box in section F.
2. Correct or add new information on the appropriate lines of the return.
3. Re-figure the estate’s or trust’s tax liability.
4. Return to screen 1 and click the **Amended Expl** link beside the **Amended return** box.
5. On the **Amended Changes** screen:
   - Enter the number of the line you changed.
   - Describe the line you changed. (For instance, you might enter, “Interest Income” if you changed line 1 of page 1 of Form 1041.)
   - Enter previous and amended amounts.
   - Enter an explanation.
5. Press **PAGE DOWN** for another screen to explain another change.

If an amended return results in a change to income, distribution, or other information provided to a beneficiary, an amended Schedule K-1 must also be filed with the 1041 and copies given to each beneficiary. To have the program generate an amended Schedule K-1, go to the **K1** screen and select the **Amended K-1** box.

**NOTE** If the total tax is larger on the amended return, taxpayer should generally pay the difference with the amended return.

### Filing an Extension

For calendar-year estates and trusts, Form 1041 and the K-1 schedules must be filed on or before March 15, 2017. Fiscal-year estates and trusts must file Form 1041 by the 15th day of the fourth month following the close of the tax year. When the extension application is submitted, the due date will be changed to the 15th day of the fifth month following the month of the regular due date.

To apply for an extension, open the **EXT** (or 7004) screen, available from the **Other Forms** tab. If this is a short-year return, select the reason on line 5b. (If the reason is not listed, explain the reason in the **Other (describe)** text box.)

An entry on either line 6 or 7 overrides calculated amounts.

### State-specific Information

The program automatically generates a return for the estate’s or trust’s resident state. Use screen 2 to enter additional, state-specific information as it should appear on the state return. (Access screen 2 from the **States** tab, or enter 2 in the selector field and press ENTER.)

**NOTE** The information fields on screen 2 apply for the resident state only.
Making Changes on the Fly

Use the PRNT screen to override most program defaults.

Suppress or Force Printing

To suppress or force the printing of certain documents, go to the PRNT screen and select the desired options. Many “on-the-fly” changes override options that are set up globally in Setup.

Items to Print

The following PRNT screen options allow you to force forms and other information to be generated with the return:

- **Print Form 1041-I** — Generates Schedule I, Alternative Minimum Tax – Estates and Trusts, with the return. (This option overrides the Print Form 6251 only when required option in Setup > Options > Form & Schedule Options.)
- **Print Form 8582** — Generates Form 8582, Passive Activity Loss Limitations, with the return.
- **Print Form 4562** — Generates Form 4562, Depreciation and Amortization, with the return. (This option overrides the Print Form 4562 only when required option in Setup > Options > Form & Schedule Options.)
- **Print Form 8960** — Generates Form 8960, Net Investment Income Tax - Individuals, Estates, and Trusts.
- **Print Form 4952** — Generates Form 4952, Investment Interest Expense Deduction. (See “Interest Deductions” on page 17 for details.)
- **Print Form 1045, page 3** — Generates Form 1045, Application for Tentative Refund, page 3, when taxable income is less than “0” (zero), and it did not result in a current-year NOL.
- **Print Form 2210** — Generates Form 2210, Underpayment of Estimated Tax by Individuals, Estates, and Trusts. (See “Estimated Tax Penalty” on page 29 for details.)
- **Print next year depreciation listing** — Select this box to generate the next year’s depreciation schedule. (This option overrides the Next-year depreciation schedule option in Setup > Options > Form & Schedule Options.)
• **Print summary** — Select this box to print a diagnostic summary report with the tax return. The summary report lists the forms calculated and provides a brief summary of the return.

• **Print comparison** — Select this box to include a one-page report comparing the client’s 2016 return to the 2015 return when the return is generated.

• **Print K-1 codes (Schedule K-1, page 2)** — Schedule K-1 consists of two pages: page 1 is the form itself, and page 2 consists of K-1 code explanations. By default, Drake generates only the first page of the K-1. To have page 2 generated with the return, select this box.

**NOTE**

Code sheets are not displayed in View/Print mode. When the return is printed, the code sheets are printed after the Schedule K-1s.

• **Alternative Electronic Signature PIN** — The preparer’s alternative PIN entered here must match the one created in *Setup > Preparers*.

**Items to Suppress**

Listed below are the options, available from the PRNT screen, for suppressing information from the generated return:

• **Proformas/organizers** — Choose not to generate a proforma/organizer for this client next year.

• **K-1 schedules and letters** — Choose to not generate these items with the return.

• **Grantor Trust Letter** — Choose not to generate this letter for a grantor trust.

There is no global setting in *Setup > Options* for any of these items.

**Overriding Other Printing Options**

Printing of the following items can be either forced or suppressed from the PRNT screen to override the program defaults and global options selected in Setup Options:

• Envelope cover sheet with taxpayer address

• Envelope cover sheet with IRS address

• Envelope cover sheet with state taxing authority address

• Envelope cover sheet with city taxing authority address

• Envelope cover sheet with K-1s

• Federal filing instructions

• State filing instructions

• Date shown on return (default is current system date)

• Due date to be printed on letters and filing instructions

**NOTE**

To have the program suppress the date from the return, go to the Home window, select *Setup > Options > Optional Items on Return* tab, and clear the **Date on return** check box. If you enter a date on the PRNT screen of a return, that date will be shown on the return—regardless of what is selected in Setup Options.
Listing a Different Firm, Preparer, or ERO on a Return

By default, the program generates the information shown in Table 7 on the return.

**Table 7: Firm, Preparer, and ERO Data that Can Be Changed on the Fly**

<table>
<thead>
<tr>
<th>Information</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Firm</td>
<td>Firm #1 from Firm Setup (first firm entered in Setup &gt; Firm(s))</td>
</tr>
<tr>
<td>Preparer</td>
<td>Preparer who fills out the return (entered in Setup &gt; Preparers)</td>
</tr>
<tr>
<td>ERO</td>
<td>ERO from Setup &gt; ERO; appears on Form 8879-F, IRS e-file Signature Authorization</td>
</tr>
</tbody>
</table>

To override any of these defaults for a return, go to screen 1 of the return. In the **Other information** section of the screen, select the name or number of the firm, preparer, and ERO.

You can also use the PREP screen (accessible from the **Miscellaneous** tab of the **Data Entry Menu**) to override the following information:

- Federal preparer information (if the firm is not set up in Firm Setup)
- State preparer information (if the firm is not set up in Firm Setup)

**Electronic Filing**

Steps for e-filing a 1041 are same as for a 1040. See the *2016 Drake Tax User’s Manual* for details. For information on signing the return electronically, see “Signing the Return” on page 42.

**NOTE** Short-year return cannot be e-filed unless they are initial-year or final-year returns.

**“EF Notice” Page**

Similar to federal Form 9325, Acknowledgment and General Information for Taxpayers who File Returns Electronically, generated with 1040 returns, the federal and state fiduciary packages now generate an “EF Notice” page for the main forms of federal returns and “(ST)EF_ACK” page for the main forms of state returns.

This is a Drake Tax-generated form that serves the same purpose as Form 9325: an acknowledgment that a return has been transmitted through Drake Tax and received by the IRS or the applicable state agency.

When a return is e-filed and you receive a “P” ack (indicating that the return is being processed), the top section of the EF Notice is completed, noting the name and address of the client, the return type, the ERO who transmitted the return, and a box is marked indicating the return was *received* by the IRS or applicable state agency.
When you download and process your acknowledgments and receive an “A” ack, the second section of the EF Notice is generated, indicating the return was accepted by the IRS or state agency and the date the return was accepted. The submission ID number is also included.

**Electronic Funds Withdrawal (Direct Debit)**

Use the PMT screen, accessible from the General tab, to indicate that funds due are to be electronically withdrawn (direct-debited) from an account.

**Program Defaults and Overrides**

By default, the program indicates that the entire balance due is to be electronically withdrawn on the return due date, unless otherwise indicated.

**Balance due** — To indicate that only part of the balance due should be withdrawn from the account, enter the amount to be withdrawn in one or both of the payment amount override fields: Federal payment amount or State payment amount.

**Payment date** — Use the Requested payment date override fields to request a payment date other than the due date. If the return is e-filed on or before the due date of a calendar year (April 18 for a 2016 return), the requested payment date cannot be later than the due date. If the return is transmitted after the due date, the requested payment date cannot be later than the current date.

**Phone number** — An entry in the Daytime phone number field overrides the phone number entered on screen 1.

**Required Information**

A Withdrawal selection (Yes or No from the Federal selection drop list, and a selection from the State/city selection drop list if applicable) is required if the program is to direct tax authorities to electronically withdraw funds from the account indicated.

The name of the financial institution, the financial institution’s routing number (RTN), the client’s account number, and the type of account (checking or savings) are required. The RTN, Account number, and Type of account must be entered twice.

**State Balance Due**

To have a state balance due electronically withdrawn from an account other than the account indicated for federal, complete the fields in the Account #2 section of the PMT screen.

**NOTE**

See the State/city selection drop list for a list of states currently accepting payments through the PMT screen.

**Foreign Accounts**

Due to new banking regulations regarding International ACH transactions (IAT), state taxing agencies are required to handle foreign transactions differently from domestic transactions. For filing season 2016, no states are supporting IATs.

If a state payment is coming from or through an account located outside of the U.S., indicate which account by marking one of the check boxes at the bottom of the PMT screen.

For more information on IATs and handling foreign accounts in the program, see the Screen Help for the PMT screen.
Common Error Codes

If the following IRS error reject code is generated when you e-filing a 1041 return, you must contact the IRS for further information. The e-file help desk number is (866) 255-0654.

- **Reject Code 122** — The “EIN Name Control Mismatch” reject (code 122) is by far the most common e-filing error code for 1041 returns, according to the IRS. Drake has made improvements to its 1041 program to prevent returns from being rejected under this code. See the field help for the **Entity name control** box on screen 1 for details.
